

Крып FX

COOKIE POLICY

COOKIE POLICY

Cookies are small text files placed on your computer that are created by the websites you visit or by certain emails you open. Cookies are used to improve your user experience, enable functionality on the website, facilitate site security and provide the business with marketing information about the site's visitors.

Cookie text files comprise both numbers and letters and are saved into special areas in the memory of your computer or mobile device. Cookies stored here are called session cookies while cookies placed into the hard drive are called persistent cookies.

KrypFX cookie disclosure provides the user with information related to the cookies set when you visit a KrypFX website and how to reject or delete those cookies. Users should be familiar with our **KRYPFX Privacy Policy**.

1. HOW KRYPFX USES COOKIES

KrypFX websites use cookies to provide the functionality you need to browse our site correctly. KRYPFX websites issue cookies upon visiting our websites, unless the user has changed cookie settings in their browser to refuse cookies. Please note that with cookies switched off, many areas of our website and services will not be made available to you; such as KRYPFX Client Portal, where login functionality will be unavailable. Also, by disabling cookies, the functionality of social bookmarking will not be functional.

KRYPFX does not use cookies to collect personal identifiable information about you. The cookies that we use collect solely anonymous information that is used to optimize our services.

Please note that not all the cookies on our sites are set by us. Please see the section below on third party cookies.

2. KRYPFX WEBSITE COOKIE TYPES

- **Session cookies** save website 'session' credentials for visitors both logged in and not logged in. Once the browser is closed, the cookie is deactivated – and the session closed.
- **Analytical cookies** collect visitor information, such as the number of visits and how our website was found (e.g. via a marketing campaign). This information is extremely important to us as it helps us improve our website and further enhance visitor experience.
- **Functional cookies** are solely concerned with visitor experience on the website. For instance, they recognize the open/closed status of pop up messages, they memorize the time zone or view state of the Economic Calendar and they enable access to information stored when

registered with KRYPFX. Without these functional cookies no settings information can be saved.

- **Targeting Cookies** are set to know when and how often you visit KRYPFX website, and which parts of it you have used (including which pages you have visited and which links you have visited). As with analytics Cookies, this information helps us to better understand you and, in turn, to make our website more relevant to your interests. Some information gathered by targeting Cookies may also be shared with third parties.
- **Third Party cookies** are set by other websites who place cookies on the user's computer and are introduced when you are logged in to their service. These cookies are session, analytical and functional and KrypFX does not control their dissemination. These cookies determine if the user is already logged into a social network, control bookmarking or sharing KRYPFX content.
